AQUAMAN™  
Pure Drinking Water

## Pure Water Innovations OZO 3 Tap

Dear Customer,

Since the human body is composed of at least 70% water, the quality, nature and amount of water consumed should be considered a priority by all of us. If you want the cleanest (organically) water possible, you will want an OZO3 Tap.

Bottled water is cleaned and filtered but **OZO 3 Tap** takes water to the next level using the latest, cutting edge energy technologies.

**OZO 3 Tap** water processing is proven to kill microorganisms, cysts and viruses as well as removing heavy metal contamination (except fluorides) to provide a constant supply of oxygenated/ozonated water of the highest quality without the inconvenience and unnecessary cost of bottled or filtered water. It is easily installed (connects directly to a tap) and is water efficient as well as economical to buy.

The use of **OZO 3 Tap** results in the elimination of harmful organic substances including (chlorine, bacteria, viruses, heavy metals) and is ideal for use in both the home or commercial settings.

### Need More Information?

Contact us by e-mail or ring our sales and marketing department on (07) 3391 4566 and an AquaMan consultant will be happy to assist.
