

AquaMan Australia Pty Ltd

ABN 53 080 225 190

Dear customer,

You are what you drink!

The Human body comprises at least 70 % water!

What you drink matters, in the way you feel, the way you look and the way your body functions.

Aquaman Australia uses and recommends a great a new product for hydration, detoxification and refreshment!

The new X2O Xooma can transform your water into a powerful health beverage which helps your body to mineralise, hydrate, and revitalise more cost effectively and better than anything else in the market place.

X2O Xooma is an all-natural, organic mineral complex derived from a pristine ocean source found near the Okinawan Islands of Japan. Harvested in its natural form, it utilises a patented processing method to ensure the highest level of purity and safety before this powerful product is packed into individual, ready-to-use "sachets."

It's as easy as 1-2-3!

Step 1: Drop an X2O sachet ("teabag") in 600-800 mil of filtered pure drinking water.

Step 2: Shake

Step 3: Allow 5 minutes for X2O to transform your water before drinking.

Throughout the day-top your water bottle up as much as you like.

Please note that you can always find our updated product range and technical info on our web site www.aquaman.com.au or www.xoomworld.com/aquaman

We kindly ask you to forward this information to the persons concerned in your organisation and your family and friends for their better health.

Best regards,

Continually assists your body to detox from only \$1.20/day
